Vacancy title: Regulatory Affairs Specialist

Department: Marketing

Location: Gorinchem, NL

Publish date: April 2024

We're hiring! Are you our new Regulatory Affairs Specialist?

TotalEnergies Corbion is a global technology leader in bioplastics, so called Poly Lactic Acid (PLA). Our products offer a 75% reduction in carbon footprint compared to most traditional, fossil-based plastics! Our core belief is that our Luminy® PLA bioplastics can have a real and meaningful impact toward **creating a better planet for current and future generations**.

Our core values are Safety, Integrity, Ambition, and We enable others to do good. And we act like it. In addition, we actively embrace diversity in how we work together and contribute towards our shared objectives and values. By joining TotalEnergies Corbion, you will become an employee in a company where you can feel pride of your achievements and develop your career with global prospects.

What is the purpose of the job?

The purpose of the Regulatory Affairs Specialist is to ensure compliance with regulatory requirements and facilitate product approvals for our products. This role involves liaising with regulatory agencies, preparing submissions, and maintaining documentation to support the successful registration and compliance of TotalEnergies Corbion's PLA products within the industry.

What is your specific duty?

Translating the purpose results in the following specific job activities:

- Lead regulatory compliance efforts across multiple jurisdictions and product lines.
- Conduct thorough regulatory assessments to ensure product compliance with applicable laws and standards.
- Stay abreast of evolving regulatory requirements and industry trends to inform business decisions.
- Ensure our products meet regulatory requirements for safety, efficacy, quality and food contact approvals.
- Prepare and submit regulatory filings, submissions, and reports as required.
- Liaise with regulatory agencies, industry groups, and external partners to advocate for our interests and influence policy development.
- Proactive in assessing new products, support go-to-market strategy development from a regulatory perspective.
- Coordinate and compile data for regulatory submissions, ensuring accuracy and completeness.

- Collaborate with cross-functional teams including R&D, QAQC, and Legal to ensure regulatory compliance.
- Communicate regulatory requirements and updates internally to relevant stakeholders.
- Maintain and update regulatory files and databases, ensuring accuracy and completeness.
- Organize and maintain regulatory documents for audits and inspections.

The Regulatory Affairs Specialist plays a critical role in ensuring that our products meet all regulatory requirements, thereby safeguarding health and safety. By preparing submissions, maintaining accurate documentation, and liaising with regulatory agencies, this role adds significant value by facilitating product approvals, maintaining compliance with industry regulations, and ultimately enabling the company to bring safe and effective products to market efficiently.

This role is located at our HQ in Gorinchem, the Netherlands. You will work with colleagues from all over the world, specifically also our colleagues at our QAQC lab in Thailand.

What does your background and skillset look like?

- **Experience:**
 - University degree (or equivalent) in degree in a related field (e.g., Regulatory Affairs, Environmental Science, Chemistry).
 - Minimum 3 years of experience in regulatory affairs in an international environment, preferably in a related industry (e.g., chemicals, plastics or related industries). industry.
- **Knowledge & Skills:**
 - Strong understanding of regulatory frameworks, standards, requirements and guidelines.
 - Detail-oriented mindset with strong analytical and problem-solving abilities.
 - Experience with preparing and submitting regulatory documents.
 - Excellent communication and interpersonal skills, with the ability to collaborate effectively across teams; fluent in English.
 - Ability to thrive in a fast-paced environment and adapt to changing priorities.
 - Global scale experience preferred.
 - Willingness to learn and fast learner.

These criteria are an indication of the profile we are looking for. Research shows that male candidates often apply when they see a 60% match with the profile, while women only apply when they see a 100% match. If you don't meet all the criteria but you do believe that this is the right position for you, we kindly invite you to apply anyway or get in touch.

Who are we and what do we offer you?

Of course, we offer competitive remuneration and benefits, and your location will be TotalEnergies Corbion office in Gorinchem. You will be part of our Marketing team and work together with a group of 30 colleagues in our office. Our company is made up of talented, dedicated people – people who share a purpose and a vision.

*Our employees are passionate about what they do: they are experts in their field, eager to develop for the future and motivated by developing sustainable solutions
Our leaders are our role models, they guide us the way to sustainable innovation by expressing our core values and competencies*

We offer you the chance to join a global fast-growing company with a mission to create a better planet for current and future generations:

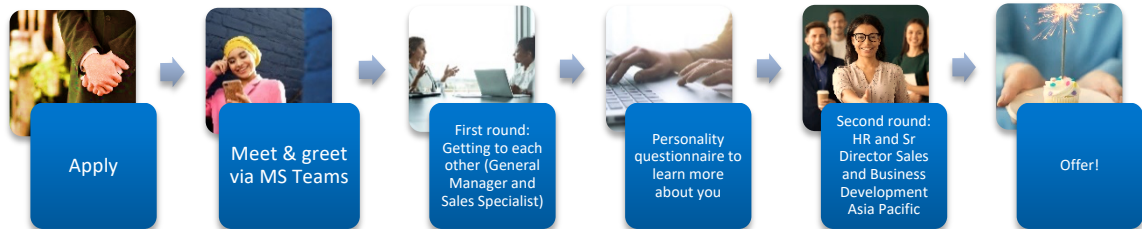

- Culture to empower people and where your initiatives and ideas make a real difference.

- International focus with truly diverse teams
- Friendly & informal culture in a demanding professional environment
