

PRESS RELEASE
Immediate release

TotalEnergies Corbion's production recognized for its sustainability performance

RAYONG, Thailand, 12th January 2023 – Recently, *TotalEnergies Corbion*'s performance was formally recognized by various ministries of the Thai Government and Ecovadis, for its production safety, environmental, and social corporate responsibility. At *TotalEnergies Corbion*, we have the motto: *Do the right thing, think safety first*. The implementation of both *TotalEnergies Golden Rules* and *Corbion Safety Rules* over the years, has led to zero accidents, as well as outstanding safety, health, and environmental performance.

The Ministry of Labor of Thailand, through the Thai Institute of Occupational Safety and Health, and its Welfare and Labor Protection department, promotes safety and environmental performance by awarding companies for consecutive years of performance excellence. In 2022, *TotalEnergies Corbion* was awarded for outstanding achievement in occupational safety health and working environment.

The Ministry of Industry of Thailand, recognizing the significance of environmental impact management, awards companies that adhere to the 3Rs program: reduce, reuse, and recycle. In this category, *TotalEnergies Corbion* was nominated for significantly lowering the quantity of PLA lump removal, created by the PLA production process, through reprocessing and returning PLA lumps to the manufacturing process.

Furthermore, *TotalEnergies Corbion* received the "Corporate Social Responsibility (CSR) Award" by the Ministry of Industry of Thailand, Department of Industrial Works, as a company that meets the standards and guidelines of the Department of Industrial Works in addition to the International CSR standard ISO26000.

Simon Goldney, *TotalEnergies Corbion* plant director in Rayong, Thailand, said: "Corporate Social responsibility is a fundamental part of our "We Enable others To Do Good" Company Core value. This entails taking into consideration the quality of life of employees and communities and supporting their growth and development. *TotalEnergies Corbion* encourages and develops partnerships with the local community and stakeholders based on a mutual understanding and trust, to give back to the community and ensuring deployment of a sustainable business strategy".

Finally, *TotalEnergies Corbion* was also awarded in 2022 the EcoVadis platinum medal - bestowed to the top 1% of the highest rated companies in the world for sustainable development. For the third year in a row, *TotalEnergies Corbion* has received EcoVadis's top ratings to drive global supply chain sustainability. EcoVadis provides holistic sustainability ratings service of companies, covering four areas: environment, labor & human rights, ethics, and sustainable procurement.

TotalEnergies Corbion is honored with the awards and recognition, and will continue to enable a safe working environment, as well as working in a sustainable and environmentally sound manner.

On August 24, 2022, Mr. Theerayut Wongsiriprasert, *TotalEnergies Corbion's Operations Manager*, received the CSR Award from Mr. Wanchai Phanomchai Director General of the Department of Industrial Works.

TotalEnergies Corbion's first evaluation by EcoVadis was in 2020, when it reached a silver rating. In 2021, the company achieved a gold medal, and in November 2022, *TotalEnergies Corbion* was awarded the EcoVadis Platinum rating with a score of 75/100, for its sustainability achievements - raking in the top 1% of companies assessed by the global sustainability ratings provider.

About TotalEnergies Corbion

TotalEnergies Corbion (formerly known as Total Corbion PLA) is a global technology leader in Poly Lactic Acid (PLA) and lactide monomers. PLA is a biobased and biodegradable polymer made from annually renewable resources, offering a reduced carbon footprint versus traditional plastics. The Luminy® PLA portfolio, which includes both high heat and standard PLA grades, is an innovative material that is used in a wide range of markets from packaging to consumer goods, fibers and automotive. TotalEnergies Corbion, headquartered in the Netherlands, operates a 75,000 tons per year PLA production facility in Rayong, Thailand and has recently announced the intention to build a second plant in Grandpuits, France. The company is a 50/50 joint venture between TotalEnergies and Corbion. www.totalenergies-corbion.com

About TotalEnergies

TotalEnergies is a global multi-energy company that produces and markets energies on a global scale: oil and biofuels, natural gas and green gases, renewables and electricity. Our 105,000 employees are committed to energy that is ever more affordable, cleaner, more reliable and accessible to as many people as possible. Active in more than 130 countries, TotalEnergies puts sustainable development in all its dimensions at the heart of its projects and operations to contribute to the well-being of people. www.totalenergies.com

About Corbion

Corbion is the global market leader in lactic acid and its derivatives, and a leading supplier of emulsifiers, functional enzyme blends, minerals, vitamins, and algae ingredients. We use our unique expertise in fermentation and other processes to deliver sustainable solutions for the preservation of food and food production, health, and our planet. For over 100 years, we have been uncompromising in our commitment to safety, quality, innovation and performance. Drawing on our deep application and product knowledge, we work side-by-side with customers to make our cutting-edge technologies work for them. Our solutions help differentiate products in markets such as food, home & personal care, animal nutrition, pharmaceuticals, medical devices, and bioplastics. In 2020, Corbion generated annual sales of € 986.5 million and had a workforce of 2,267 FTE. Corbion is listed on Euronext Amsterdam. www.corbion.com
