

TotalEnergies Corbion is a global technology leader in Poly Lactic Acid (PLA). PLA is a versatile, biobased and biodegradable polymer made from annually renewable resources. PLA offers a reduced carbon footprint versus many traditional plastics and can be mechanically or chemically recycled. It can be used in a wide range of markets and applications. TotalEnergies Corbion is a young and fast-growing company founded in 2017. We already operate a 75.000Ton/year PLA plant in Rayong, Thailand and we are planning to build an additional plant in Grandpuits, France. Within our Global Leadership team we currently have the open vacancy:

Global Supply Chain Director

As our Global Supply Chain Director you will have the overall responsibility for our supply planning, inventory management, inbound and outbound material transport, and warehousing / distribution activities across the globe. You work closely with Commercial and Operations to ensure the right products are at the right place at the right time and delivered to our customers with outstanding quality and service. You will continually drive to improve the performance of the team, of the systems utilized, and of the cost efficiency of the supply chain both in both working capital and operating costs.

You are part of our Global Leadership Team and we are looking for a leader who is just as passionate as we are about our company and your own field of expertise. As well you are enthusiastic, knows how to inspire others, connect people and is keen on seeking and identifying new opportunities to continuously implement changes and innovation. You are able to recognize the impact of your own decisions and the effect on others in the organization and you are able to delegate your work in an understandable and structured manner to the ones in your team. *Our leaders are our role models, they show us the way to sustainable innovation by expressing our core values and competencies.*

We are looking for someone who fits well in our fast-paced team environment, leading and coordinating across multiple functions whereby:

- you are overall responsible for our (high level) supply planning, inventory management, inbound and outbound material transport, and warehousing / distribution activities across the globe.
- there is a specific need to develop the best practice S&OP process in the company to continue to structure the JV's growth and make sure we are ready for the future and ensure finished goods are delivered to our customers with the highest quality and service while minimizing cost to serve and working capital.
- to achieve this you team up and work in close cooperation with our Supply Chain managers who give daily coaching and direction to the teams within the Supply Chain Departments and provides the overall management. This team consists of the customer service teams across the globe and includes logistics. Some colleagues are directly hired by TotalEnergies Corbion other are seconded to the JV from TotalEnergies.
- you manage - on a strategic level - the yearly processes: production budget, long term asset review for the PLA and Lactic Acid intake.
- seek (strategic) new opportunities to improve our processes and business:
 - Identify and lead opportunities to improve coordination between the supply chain functions and Commercial teams including Customer Service
 - Oversee efforts to improve our software systems and tools

- develop and own operating cost budgets across all departments within the Supply Chain organization.
- Part of the leadership team.

All in all you are our role model and show us the way to sustainable innovation when it comes to supplying our customers at the highest level of quality and enabling your team to do better than they imagined they could ever do.

For this job we would like you to have:

- Knowledge: Expert level on supply chain aspects.
- Experience: 8-12 years supply chain experience in a manufacturing environment
- Skills: Academic level. Strong analytical skills, strong communication and influencing skills, proactive and decisive, cultural awareness Excellent interpersonal, and a high level of integrity.
- Effectively network and function in a complex internal and external ecosystem of colleagues, stakeholders, and influencers.

* These criteria are an indication of the profile we are looking for. Research shows that male candidates often apply when they see a 60% match with the profile, while women only apply when they see a 100% match. If you don't meet all the criteria but you do believe that this is the right position for you, we kindly invite you to apply anyway or get in touch.

What do we offer?

We offer competitive remuneration and benefits, and your location will be TotalEnergies Corbion head office in Gorinchem, The Netherlands. What makes TotalEnergies Corbion special is that we produce and market environmentally friendly, biobased, and biodegradable plastics that help to create a better and waste free society. Our company is made up of talented, dedicated people – people who share a purpose and a vision. We often do activities together and have a real Bonzini soccer table.

We offer you the chance to join a global fast-growing company with a mission to create a better planet for current and future generations:

- Culture to empower people and where your initiatives and ideas make a real difference
- International focus with truly diverse teams
- Friendly & informal culture in a demanding professional environment

Our core values are safety, integrity, ambition, and we enable others to do good. In addition, we actively embrace diversity in how we work together and contribute toward our shared objectives and values. By joining TotalEnergies Corbion, you will become an employee in a company where you can feel pride of your achievements and develop your career with global prospects
